The Amazing Health Benefits of Carrots

There is something really special about carrots. Not only does it taste delicious, but the health benefits of carrots are numerous. Carrots contain anti-aging properties, are a powerful source of Vitamin A, and are also known for cancer prevention, amongst others.

Popular belief about the origin of carrots is that it was first cultivated in what is now known as Afghanistan. The carrots cultivated then were not the orange ones we know and love, but were purple and yellow. Over time, white and red carrots appeared before the orange variety showed

up in the 16th and 17th centuries.

It takes a lot of guts and tenacity to be a successful entrepreneur in Africa. With poor electricity, the exorbitant cost of internet and the near-impossible access to funding any successful entrepreneur you encounter in Africa probably has a long trail of failed businesses behind him or her. So what do you need to become a successful African entrepreneur?

[Patrick Bitature](#), the Ugandan telecoms mogul is a successful African entrepreneur who made his fortune in Africa. The founder and chairman of the Simba Group of Companies, an East African conglomerate, he began his first business selling sugar when he was only 13 years old and according to him, tried so many businesses and failed at so many businesses before things finally took off. With interests in media, telecoms, energy, real estate and lots more, Patrick Bitature is one of the wealthiest people in Uganda. In an interview with CNBC, he talked about his journey as an entrepreneur and shared some tips as well. Here are five tips we picked up.
